

SWIMMING POOLS

Magiline

PASSION FOR POOLS

MAGIPOOL PERFECT'filtre
THE EXCELLENCE OF THE FRENCH SWIMMING POOL

DESIGNER, MANUFACTURER
OF SWIMMING POOLS SINCE 1994

FACTORY BASED IN
FRANCE

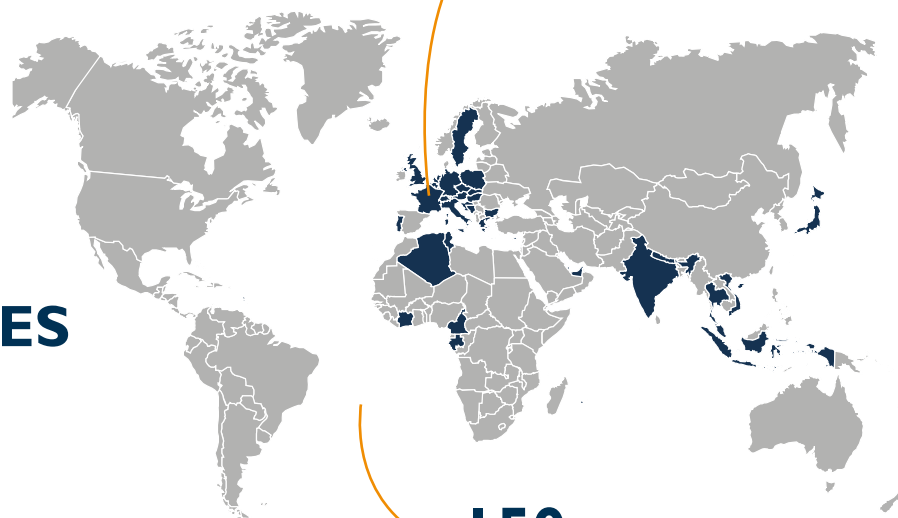

50 000
SWIMMING POOLS BUILT

PRESENCE IN
35 COUNTRIES

87
PATENTS

150
DEALERS IN 4 CONTINENTS

A COMPANY *THAT INNOVATES*

« *Always an innovation ahead* » is one of Piscines Magiline's slogans. With 87 international patents filed, innovation has always been part of Piscines Magiline's DNA.

The only industrial site in Troyes, with a 10,000m² area, has its own R&D department combined with a high-performance industrial tool. All the pool kit's components are produced in-house.

A COMPANY

RESPONSIBLE AND COMMITTED

AN ECO-RESPONSIBLE APPROACH

- A global CSR policy with a commitment to a more responsible swimming pool with less impact on the environment
- Less concrete thanks to a honeycomb structure
- Use of recycled products to manufacture our structures
- Management of our production and work site waste
- Reduced earthwork area for real savings on excavation and backfill

A COMFORTING EXPERIENCE

- R&D and support services, factory and training center based in Troyes, in the Champagne region
- 50,000 swimming pools built since the creation of Magiline in 1994
- 150 dealers in 35 countries (with Germany, Japan, Switzerland...)

ALWAYS ONE INNOVATION AHEAD...

- 87 international patents filed by our R&D department
- An exclusive solution of new generation swimming pool designed and manufactured in-house
- Evolving technologies to adapt to future requirements and constraints

A FRENCH COMMITTED COMPANY

- The only company in the sector certified with the «Origine France Garantie» label
- The only pool manufacturer to be part of the «French Fab» movement
- Partnership with humanitarian aid organization «Solidarités International» since 2014

Corporate video presentation

A COMPANY COMMITTED TO CSR

(Corporate Social Responsibility)

The challenges of sustainable development are one of the central components of Piscines Magiline's strategy.

This approach is not new to Piscines Magiline, the company has always integrated respect for environmental constraints into its way of working and the solutions it offers.

Raw Materials and Design, Manufacturing, Transport and Distribution, Use and Recycling : 4 challenges aligned with the company's mission «to (re)think the pool within a loop economy». Piscines Magiline aligns its actions and decisions to give a strong meaning to its mission.

Magiline and CSR video

YOUR PROJECT IS UNIQUE

WE IMAGINE YOUR PROJECT TOGETHER

Piscines Magiline brings your ideas to life

- . We adapt our solution according to your expectations
- . We take into account your specific constraints
- . We install your pool to fit perfectly with your garden and home

- . Made-to-measure pool shapes and sizes
- . Customized and equipped staircases and benches
- . Bottom shape and depth adapted to swimming areas
- . Wide choice of colors for your coating
- . Wide selection of Premium equipment

PATENTED STRUCTURE CONCEPT:
Strength and durability for a self standing, self-supporting pool (no struts or reinforcements).

ULTRA EFFICIENT FILTRATION:
15 microns cartridge filtration and water filtered 3 times faster.

SHUTTER, COVER:
A wide choice to cover your pool.

EVERYONE HAS THEIR OWN SWIMMING AREA:
Balneo, swim jets, swimming lane, children area, diving...

POOL AND STAIRCASE SHAPES CUSTOM MADE: Modular structure concept to make your pool dream come true.

RESPONSIBLE CONCEPTION :
Optimization of consumption, use of recycled materials, waste management...

AUTOMATIC TREATMENT AND SERENITY: No more constraints, water disinfection is automatically managed.

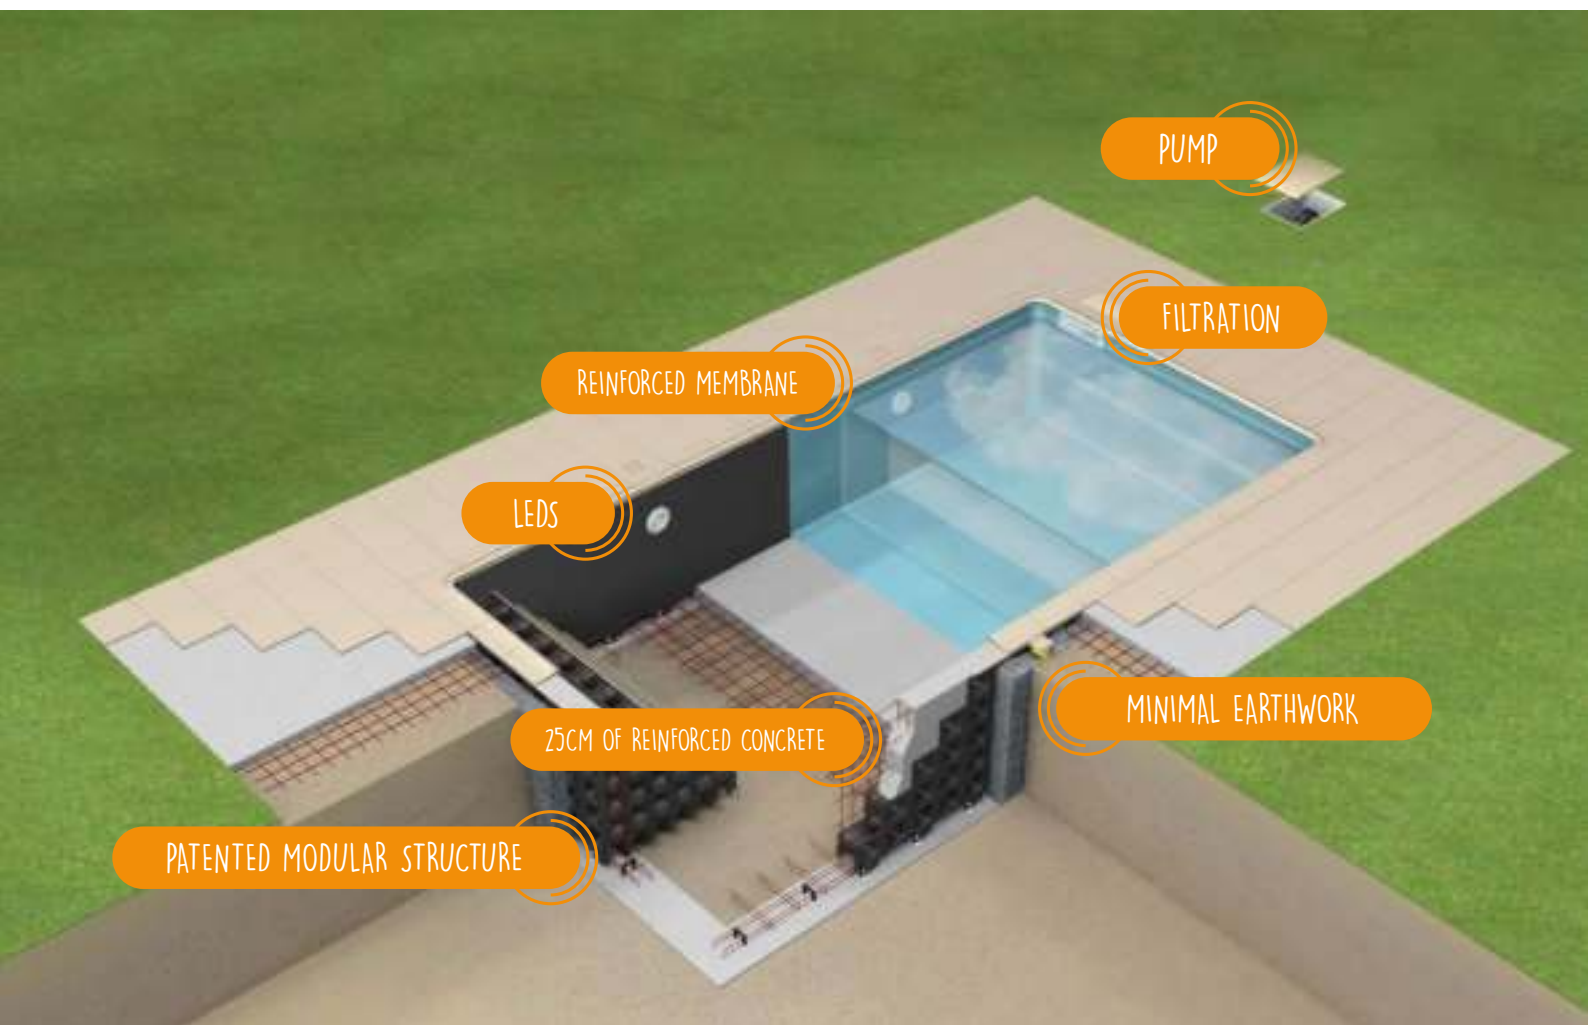

INSTALLATION BY A PROFESSIONAL:
A true commitment to quality and service from your Magiline dealer.

some of the functions shown are optional

THE PISCINES MAGILINE CONCEPT MAKES YOUR DREAM COME TRUE

POOL MAGIpool

FILTRATION PERFECTfiltre

QUALITY AT THE HEART OF OUR SERVICE: Modular design, a monobloc pool, self-supporting panels, no struts, protected from rot and corrosion to ensure longevity, crack resistance and seismic resistance.

ROBUST: 25cm thick reinforced concrete, reducing concrete requirements by 50%. Honeycomb structure.

ADJUSTABLE: Pool depths from 0,30m to 1,50m, straight or curved shapes.

EASY INSTALLATION: Thanks to an industrialized system. A modular structure that is easy to assemble.

REDUCED INSTALLATION TIME: Only 5 working days, easy excavation.

WATERPROOFNESS : 1,5cm reinforced membrane, wide choice of colors, patterns and quality. 10-year warranty (possible option: 75mm PVC liner with felt and foam).

THE EXCELLENCE OF THE FRENCH SWIMMING POOL

REVOLUTIONARY HYDRAULIC CONCEPT: PERFORMANCE AND SAVINGS

The flow reducer ① works with Venturi effect and accelerate water flow: the volume of water pumped is greatly reduced. And thanks to its filtration system ②, one of the finest on the market, it can filter even the tiniest particles.

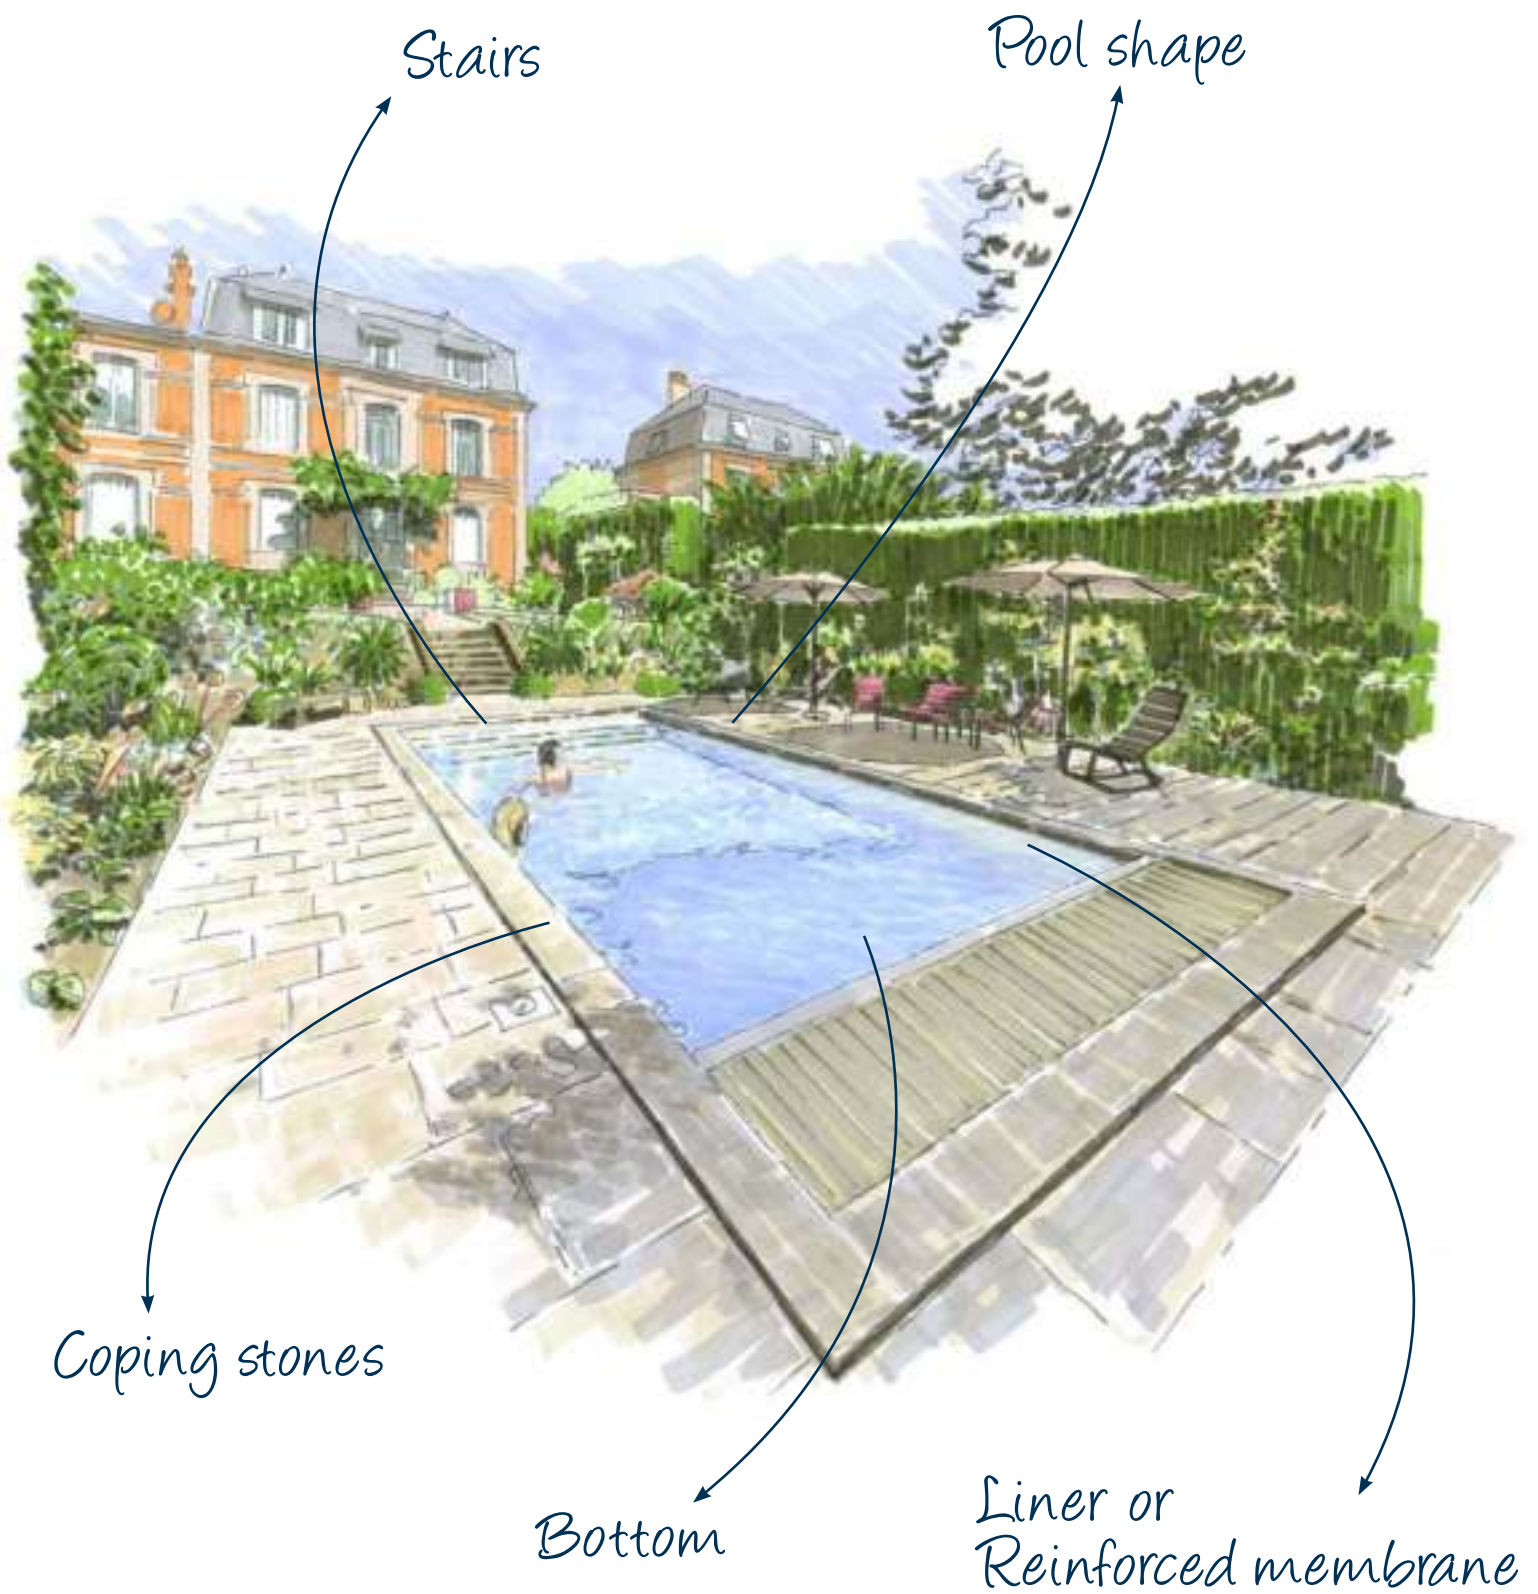

ENERGY SAVING: 20m³/h of water filtered with just a pump of 450W.

REDUCED CONSUMPTION OF CHEMICAL PRODUCTS: The 15 microns filtration system delivers crystal-clear water.

EASY MAINTENANCE: The pre-filter ③ captures leaves and large impurities, reducing the need to clean the filtration system.

EASY POOL CLEANING: The skimmer ④ has an integrated pressure discharge nozzle and a broom connector.

WE MAKE
THE POOL OF YOUR DREAMS

TOGETHER WE DESIGN A CUSTOMIZED POOL

The shape and dimensions of the pool can be made-to-measure to suit your needs, and the stairs can be personalized to meet your specific requirements. The shape and depth of the bottom will be adapted to your bathing activities, and the coating is available in an infinite choice of colors.

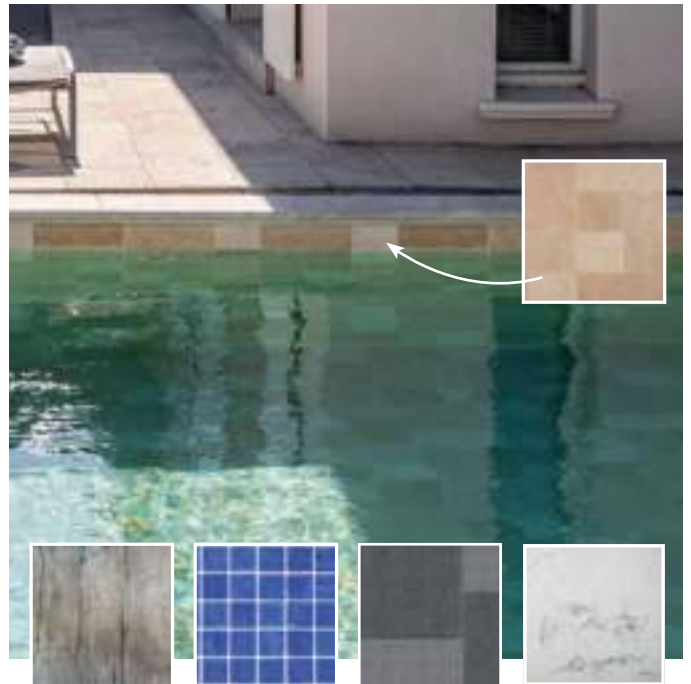

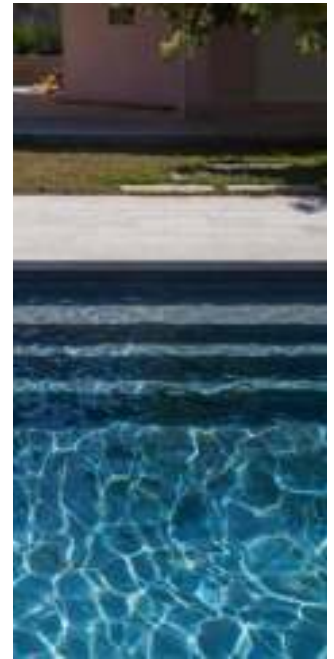

A WIDE CHOICE OF COATINGS

PVC reinforced membrane: solutions designed for waterproofing, protecting and decorating in-ground pools. Plain, printed, smooth or anti-slip, you have a wide selection for your reinforced membrane.

THE STAGES

FOR THE INSTALLATION OF YOUR POOL

1. EARTHWORK

2. CONCRETE BASE

3. ASSEMBLING THE STRUCTURE AND REINFORCEMENT

4. CONCRETE POURING

6. FINISHING SCREED

7. LAYING REINFORCED MEMBRANE

YOUR POOL IS READY FOR
SWIMMING !
